

*Please join the McIntosh Gallery Art & Travel Committee
for a Day Trip to the - **Aga Khan Museum, Toronto***

"The aim of the Aga Khan Museum will be to offer unique insights and new perspectives into Islamic civilizations and the cultural threads that weave through history binding us all together. My hope is that the Museum will also be a centre of education and of learning, and that it will act as a catalyst for mutual understanding and tolerance. " His Highness the Aga Khan

*In designing the Aga Khan Museum, Fumihiko Maki, winner of the Pritzker Architecture Prize, used light to animate the building in myriad ways: throwing patterns on the exterior walls of Brazilian granite, enhancing interior spaces, and illuminating the open-roofed courtyard. The building's compact footprint — 81 metres long and 54 metres wide — contains an impressive variety of spaces, including two exhibition galleries, areas for art conservation and storage, and a 350-seat theatre. This trip includes: a guided tour of the highly acclaimed **Arts of the East** from the Bruschetti Collection (13th-17th Century), an **Architectural Tour** of the Museum plus a **Tour of the Ismaili Centre**.*

Wednesday, November 8, 2017
